Subject: Re: Sample Color/Turbidity

I have not been noting this. At least one sample contained enough sediment to fully coat the bottom of a VOA vial.

I have all the sample vials in my refrigerator in F-201. It would be easy enough to go through them now.

Subject: Sample Color/Turbidity

Is anyone noting the "look" of a sample for Dimock? Whether a sample is cloudy, lots of sediment, discolored?

We will discuss at 3pm briefing so no need to reply if coming to meeting.
